

JINAL DAVE

Jersey City, NJ 07307 | (551) 263-4551 | jinaldave03@gmail.com | [LinkedIn](#) | [GitHub](#) | [Personal Website](#)

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, SQL

Frontend: React.js, Angular, HTML5, CSS3, Tailwind CSS | **Backend:** Spring Boot, Node.js, Express.js, REST APIs, GraphQL, gRPC

Databases: PostgreSQL, MySQL, Firebase

| **Cloud & DevOps:** Docker, Kubernetes, GitHub Actions (CI/CD), AWS, GCP

Data Engineering: Apache Airflow, dbt, ETL Pipelines, Prometheus, Grafana

| **Tools:** Git, GitHub, Jira, Agile/Scrum

LEADERSHIP AND WORK EXPERIENCE

Software Engineer

Viz Tech Solutions, LLC | Remote

APR. 2026 – Present

- Developed and maintained **full-stack web applications** by implementing frontend functionality, backend services, and relational database integrations across the **software development lifecycle**.
- Designed **RESTful and GraphQL APIs** and built **containerized applications** using Docker and Kubernetes to support **scalable deployment**, testing, and production environments.
- Collaborated with **cross-functional engineering teams** in **Agile environments** through code reviews, debugging, technical documentation, and feature delivery.

Software Engineer

Dreamline AI | Remote

SEPT. 2025 – APR. 2026

- Developed **backend application features** by translating functional requirements into maintainable software solutions using Java, SQL, and object-oriented programming principles.
- Implemented **business logic** and **relational database interactions** while improving **application quality** through debugging, testing, software verification, and defect resolution.
- Contributed throughout the **software development lifecycle** by participating in requirements analysis, maintenance, technical documentation, and collaborative development workflows.

Peer Success Guide and Tutor

New York Institute of Technology, New York, NY

NOV. 2019 – MAY 2022

- Mentored **30+ students** by tracking academic progress, performance trends, and implementing individualized success strategies.
- Collaborated with academic staff to coordinate student **support initiatives**, document outcomes, and resolve academic challenges.
- Delivered technical instruction in **Java, Python, Data Structures, Statistics, and Systems Design**, strengthening debugging, programming/problem solving skills, analytical thinking, and software development fundamentals.

Club Secretary

Society of Women Engineers (NYIT Chapter), New York, NY

OCT. 2019 – DEC. 2021

- Established and grew a **50+ member community** of women engineers by organizing **technical workshops**, networking events, and professional development initiatives that increased engagement within the engineering community.
- Led **national conference participation for 20+ students** at WE'20 WE'21 securing **SWE Local (2020) Membership Growth Award**.

PROJECTS

CareerPulse: AI Career Intelligence Platform

React, Node.js, PostgreSQL, Airflow, dbt, Docker, OpenAI API

JUN. 2026

- Built a **full-stack career intelligence platform** that aggregates live job market data and delivers **AI-powered resume analysis**, skill-gap detection, and hiring trend insights through interactive analytics dashboards.
- Developed **automated ETL pipelines** using Python, Apache Airflow, dbt, and PostgreSQL while integrating **OpenAI APIs**, Docker, and GitHub Actions to transform external job data into scalable analytics and personalized career recommendations.

TravelSync: AI Travel & Networking Platform

React, Node.js, PostgreSQL, Docker

JUN. 2026

- Developed a **full-stack travel platform** integrating itinerary management, event discovery, location search, networking, and AI-powered trip planning into a unified user experience.
- Designed **RESTful APIs** and **normalized PostgreSQL data models** while integrating OpenAI, Geoapify, and Ticketmaster APIs to deliver personalized recommendations, scalable backend services, and Docker-based deployment.

AI Financial Insights Dashboard

React, Node.js, Express, Finnhub API, OpenAI API, Tailwind

MAR. 2026

- Developed an **AI-powered financial analytics platform** integrating live market data, company information, financial news, and historical stock performance into an interactive dashboard.
- Built **reusable backend services** and **React visualizations** by integrating Finnhub, Yahoo Finance, and OpenAI APIs to aggregate financial data, generate **AI-powered market insights**, and deliver responsive analytics.

EDUCATION

M. S in Software Engineering

New Jersey Institute of Technology, Newark, NJ

Graduated: MAY 2024

- **Relevant Coursework:** Data Structures & Algorithms, Database Management Systems, Software Architecture, Operating Systems, Software Testing & Quality Assurance, Software Design & Project Management, User Experience Design

B. S in Electrical & Computer Engineering Technology

New York Institute of Technology, New York, NY

Graduated: MAY 2022

- **Relevant Coursework:** Java Programming, Computational Analysis (MATLAB), Project Engineering, Web Development, Embedded Systems & IoT, Mobile App Development, Technology Business Startup Practices, Engineering Economics
 - **Academic Honors:** Graduated Magna Cum Laude, Dean's Honor List (Jul. 2021), Presidential Honor List (Jan., Jul. 2020)
